

Eligible Home Upgrades

Los Angeles County homeowners may qualify for incentives and rebates of up to \$4,500 for making energy-efficient upgrades

Basic Package: Incentives of up to \$1,000 for installing all of the package upgrades

Homeowners must have an existing central Heating, Ventilating and Air Conditioning (HVAC) system and install all of the energy-efficient measures to qualify. If one or more of the upgrades is already installed, the home is ineligible for the basic package.

- Attic insulation upgrade
- Duct leakage improvement
- Air sealing
- Insulation of domestic hot water pipes
- Installation of low flow shower head with thermostatic flow restriction valve or thermostatic flow restriction device
- Safety combustion test

Advanced Package: Incentives between \$1,250-\$4,500 for installing a mix of the package upgrades that meet a minimum energy savings of 10-40 percent

To be eligible for advance package incentives, homeowners must meet a minimum 10 percent energy reduction by installing a combination of the upgrades in this package.

- Air sealing
- Attic insulation
- Wall insulation
- Duct test and seal
- Insulation of domestic hot water pipes
- Low flow shower head with thermostatic flow restriction valve or thermostatic flow restriction device
- Proper heating and cooling system per ENERGYSTAR® Quality Installation guidelines
- Hot water system (i.e. ENERGYSTAR® natural gas storage, tankless or efficient electric storage water heaters)
- Whole House fan
- Energy efficient ducted evaporative cooling system
- Variable-speed pool pumps
- ENERGYSTAR® ceiling fans with ENERGYSTAR® CFLs
- ENERGYSTAR® interior hardwired fluorescent fixtures
- High performance dual-pane windows
- Cool roof
- Radiant barrier
